

FREE DINNER

March 29th

What will we be having? Korean food!

Why? Because you've probably asked yourself...

Why do we have a Korean Dual Language Program at our school?

Please join us at our Informational Night to learn more about the cognitive benefits of learning a second language from an early age as well as the proven academic success of students in a dual language program. You don't need to be Korean to attend! If your curiosity is sparked...please come. All current families and incoming families are welcome!
